LEGISLATIVE NOTES,

Report of the Conference Committee on the General Appropriation Bill.

The Bill to Regulate the Telephone Service Still Pending in the Senate-Montgomery County's Protest.

The Democratic Senators will caucus immediately after the noon adjournment, today, to decide upon the selection of a nom!nee for the position of President pro tem, of

The bill requiring township institutes to be held on some day other than Saturday, and allowing the teachers a day's pay for attending the same, failed to pass yesterday for want of a constitutional majority.

Senator Brown's bill requiring the polls in election precincts to be opened at 6:30 a. m., was called up and passed vesterday morning in the House, the Republicans who voted against the measure before now supporting it.

The bill regulating the price of telephone service was called up in the Senate yesterday afternoon, but no vote was reached. Senator Foulke spoke against the passage of the bill, and the discussion will be renewed this morning, when the matter will come up | taught to perform tricks with such cleveras unfineshed business.

The bill regulating the hiring of convict labor was passed by the House yesterday; also the Senate bill concerning decednts' esta'es, and also concurred in the Senate | theroughly enjoyed the sport. Daname dments to the bill requiring railroad companies to fence their right of way within | ing in at the finish with some feat the most a period of twelve menths.

Senator Willard yesterday tendered his resignation as Chairman of the Finance Committee, his action being dictated by a feeling that he had not been treated fairly by being overlooked by the Lieutenant Governor in

The Governor signed the fellowing bills yesterday: An act to repeal an act entitled an act to legalize certain records in the office of County Recorder; an act to provide a means of keeping in repair certain gravel roads when their charters expire; an act to amend Section 229 of an act entitled an act | marched to the stirring music, sarned for | that he did not intend to throw out the providing for the settlement and distribution of decedents' estates; an act for the relief of Calvin J. Jackson, Trustee of Vernon Township, Hancock County; an act entitled an act to distribute undistributed money or funds in the Treasury of the incorporated town of Clinton, Vermillion County, State of Indiana, and authorizing the loaning of general corporation fund of said town to the School Trustee of said town.

Mr. Magee submitted a report from the Committee on Free Conference on the General Appropriation bill, and Mr. Youche, the other Senate confrere, explained that a compromise on the Senate amendments had been agreed upon by the committee, allowing \$10,000 instead of \$15,000 for additional water supply at the Insane Hospital; \$13,000 inatead of \$20,0.0 for repairs to the State University at Bloomington; \$12,500 for new sity: \$1,200 instead of \$1,400 a year to the Adjutant General; \$250 instead of \$650 a year for the expense of distributing public documents; \$600 instead of \$1,000 a year to the Deputy Attorney General. The Senate receded from its amendment to allow the Auditor of State a clerk at a salary of \$1,200, and the report was concurred in. The House also concurred in the report as submitted by the committee.

Mr. Campbell, of Hendricks, asserts that at least one-fourth of the time of members of the General Assembly has been taken up with the consideration of claims, varying in amounts from a few dollars to several thousands; that this class of cases probably amounts to one-tourth of the cases before the regular and special sessions. The time spent in the consideration of them would more than have paid for a separate Court of Claims of five Jadges with large salaries and all the contingent expenses of such a court, and even with that large expense the Legislature has been put to, besides all the extra trouble committee meetings to consider such claims, the taking of testimony and the nummoning of witnesses, the committees have been unable to arrive at satisfactory conclusions in most of the cases, and in many important ones, and members have been compelled to guess at what is just and

right and what they ought to do. MONTGOMERY COUNTY SPEAKS.

The present Legislature changed the Twenty-second Judicial Circuit, composed Parke and Montgomery Counties, by cutting off Parke County and making Montgomery County a circuit by itself. This was much desired by the members of the bar and the litigants in the court and the Taxpayers of the county in general.

The members of the banat Crawfordsville

were much surprised yesterday morning to learn that a bill had been introduced in the Senate again changing the Twenty second Circuit by attaching to it the county of Hendricks-a county with twice of Parke that had so long encumbered them and caused the docket to get eighteen months behind. A bar meeting was called. Judge A. D. Thomas was chosen Chairman, ton, W. H. Thompson and John E. Humphries were chosen a committee, and drafted the following resolution expressing the sentiment of the bar and people. It was wired Schaub, Martinsville; John B. Craighead to General Manson, Senstor Peterson and and wife, Richmond; J. G. Dailey, Boon-Representative Trout: "We, the members ville. posed to attaching any county to the Twentysecond Circuit. Our business is one year behind. The court is crowded beyond measure and we denounce as an outrage upon us and our litigants any attempt to change our circuit now. We are but now aware of the proposed change. We demand to be our circuit now. We are but now aware of the proposed change. We demand to be heard before we are oppressed. We have just held a unanimous meeting, and the feeling here is intense against the change, having just been made a separate circuit by this Legislature. Our committee

Will Be Asked to Resign. The fact came to light yesterday that Commissioner Cottrell intends to introduce a resolution at the meeting of the Police Board personally, but believes that the board can make a much better selection. There is a report abroad the heads of Petrolemen Bruce, Dawson, Laporte, Farrell and Ballard will drop into the basket.

To a reporter of the Sentinel last night the Superintendent said that he was not surprised in the least when he learned that his resignation was wanted. He was fully aware when Mr. Cottrell came on the board Under the act authorizing the appointment | that he would antagonize him, and had expected some time ago that the aforemen-tioned Comm'ssioner would ask him to resign eventually. Lang said he did not know

"PROPERTY IN LAND"

The Subject Discussed by Henry George at Plymouth Church Last Night.

Henry George, the renowned orator and agitator, at Plymouth Church last night faced an audience composed of the most intellight men in the city-one that was much more demonstrative than that which greeted him on Wednesday night. Mr. George stepped to the front of the platform or altar at 8 o'clock, and without the formality of an introduction began to speak, announcing first that theme would be "Property in Land." In his iniatory remarks Mr. George said that it was his purpose to go over a large subject. It was his sole aim to excite thought, and at the conclusion of his lecture he would gladly answer any interrogatory propounded.

The speaker stated that he had been told on more than one occasion that poverty was ment of one week, with daily matiness, at | the result of an indisposition on the part of working classes to save, and again that hard were induced by an overtimes production. This was not case. There was a common sense for other cruel treatment, in wonderful tricks all this poverty. It had been brought about and feats hitherto deemed impossible. Let one class own all of the land and that class would be the rulers. Where land ownership was distributed this absolute power would not arise so soon. It was no wonder that all over the civilized world we found widespread poverty. It was because the majority of men had no legal right to live. With all our progress it was becoming more and more difficult for the average man to live. Insanity was increasing all over the civilized world, simply because a more and more severe strain was being put upon the human system. Thousands of men and wo-Swigs beli-ringers. A Sentinel reporter tried last night to learn the name of the stranger who was robbed, but was unable to do so, the police being very reticent about the matter for some reason. It is said that a number of robberies have occurred in this locality, but that because the victims are anxious to avoid any publicity in the matter no complaints have been made.

Notice to Gas Consumers and Others.

Your attention is called to the marked reduction n the price of gas, which took effect on the 1st day of March. The Company is now furnishing gas to all consumers at \$1 80 per 1,000 cubic feet This price is certainly within the reach of all, for both lighting and cooking purposes. The convenience and comfort of cooking by gas, especially furing the summer months, where a fire is not otherwise required, can only be thoroughly ap preciated by those who have had experience in its useful application for that purpose. The Company has sold for use in this city during the last four years a large number of gas stoves, and is satisfied from the many testimontals from its patrons, that these stoves "fill a long felt want."
